### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. William Davis on November 12, 2004.

The application has been amended as follows:

At line 2 of claim 1, [2-50%] was replaced with ---5-20%---

At line 3 of claim 1, [50-98%] was replaced with ---80-95%---

At line 4 of claim 1, [0.03-80%] was replaced with ---40-70%---

At line 5 of claim 1, [0.002-40%] was replaced with ---0.05-29%---

At line 6 of claim 1, [0-60%] was replaced with ---0.15-40%---

At line 7 of claim 1, [0-30%] was replaced with ---0.5-15%---

At line 9 of claim 1, [0-10%] was replaced with ---0.005-6%---

Claims 2, 5 and 9 were cancelled.

In claim 12, after "composition", insert ---according to claim 1---

Claims 17 and 19 were made to depend from claim 1 only.

Claim 18 was made dependent from claim 17.

### ***Allowable Subject Matter***

2. Claims 1, 3, 4, 6-8 and 10-19 are allowed.

3. The following is an examiner's statement of reasons for allowance: The closest prior art of record is Aven, US 6,566,308; Narayanan, US 5,326,789; Adamy et al., US 5,641,742; and Chaudhuri et al., US 4,808,569. Aven and Narayanan disclose compositions comprising N-alkyl pyrrolidones and nonionic surfactants, but there is no clear motivation to add a fragrance. Adamy discloses microemulsions comprising 1-20% of an anionic surfactant; 0.1-50% of an n-alkyl pyrrolidone; 0-10% of a nonionic surfactant and 0.4-10% of a perfume or a hydrocarbon, the balance being water (abstract). This reads on original claim 1, as well as some of the dependent claims. Chaudhuri et al. discloses compositions which anticipate original claim 1, along with some of the dependent claims, except that it is not clear that the compositions are microemulsions (compositions C, F and J, at least). It would be incumbent on applicant to demonstrate that the exemplified compositions are not and cannot be microemulsions, or that unexpected properties arise from formulating compositions as claimed as microemulsions. These references do not anticipate or make obvious formulations according to the claims as now amended. Accordingly, the claims are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 1751

4. Any prior art made of record and not relied upon is of interest and is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to the examiner, Dr. John R. Hardee, whose telephone number is (571) 272-1318.
